

## **ENVIRONMENTAL POLICY**

BEKK Group in support of the principle of sustainable development and are committed to responsible environmental management as an integrated and integral part of our business and construction activities.

In particular terms BEKK will demonstrate that commitment by;

- ▶ Identifying and complying with all relevant environmental legislation, regulations and industry codes of practice
- ▶ Recognising that environmental factors such as energy efficiency, noise and visual impact, protection of flora and fauna, hazardous material management and waste management are all environmental aspects of our business and taking all practical steps to prevent pollution in our activities
- ▶ Conserve resources through efficient use of energy and materials whilst seeking continual improvement in the environmental performance of our operation
- ▶ Maintaining a structured approach to managing our environmental aspects by providing appropriate training for our employees and subcontractors to improve awareness and knowledge of their environmental obligations
- ▶ Clearly defining the environmental responsibilities of personnel, set targets and review results on a regular basis
- ▶ Building and encouraging environmental care amongst our people by providing sufficient resources to enable us to achieve our objectives
- ▶ Each employee is expected to promote and implement this policy and extend the understanding and acceptance of the policy to our suppliers, sub-contractors and service providers.
